

## MAINTENANCE WORK INSTRUCTIONS

MAW152

### Outside flood lights and photo cells

Rev: 0.0

Date 30/01/2009

No.	INSTRUCTIONS	KEY POINTS / CONTACTS
1.	<p>These checks are done on both electrical light panels for the two outside light circuits.</p>	<ul style="list-style-type: none"> <li>✚ ENSURE PERSONNAL PROTECTIVE EQUIPMENT (PPE) IS WORN: -           <ol style="list-style-type: none"> <li>1. HARD HAT</li> <li>2. STEEL CAP BOOTS</li> <li>3. GLOVES</li> </ol> </li> </ul> <p><b>ENSURE LOCK- OUTS AND SAFETY BLOCKS ARE USED AT ALL TIMES.</b></p>
	<p>Insert the key and switch the switch to "exterior lights on."</p> <p>Check all the lights in the circuit are working.</p> <p>Switch the switch back to "auto". The outside lights should stay on for a few seconds and then go off, indicating the day/night photo cell is working.</p>	
	<p>The outside lights include the fluorescent lights under all the door awnings.</p>	
	<p>Also included are the spot lights situated on the sides of the buildings.</p>
